                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

# QUOTATIONS OF STOCKS AND BONDS IN NEW YORK.

Government Bonds and active Railroad Stocks are quoted on a previous page and not repeated here. Prices represent the per cent value whatever the par may be. "N. Y. Local Securities" are quoted in a separate list.

### STATE, CITY AND CORPORATION FINANCES.

### EXPLANATION OF STOCK AND BOND TABLES.

- 1. Prices of the most Active Stocks and Bonds are given in the "Bunkers' Gazette," previously. Full quotations of all other securities will be found on preceding pages.
- 2. Government Securities, with full information in regard to each issue, the periods of interest payment, size or denomination of bonds, and numerous other details, are given in the U.S. Debt statement published in The Chnonicle on the first of each mouth
- 3. City Houds, and Bank, Insurance, City Hailroad and Gas Stocks, with quotations, will usually be published the first three weeks of each month, on the page immediately preceding this.
- 4. The Complete Tables of State Securities, City Securities, and Railroad and Miscellaneous Stocks and Boods will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatly stitched in with the usual edition and furnished to all regular subscribers of The Chronicle.

### NEW HAILROAD LOANS.

After a long period of dullness in new railroad bonds, caused by the extraordinary stringency in money, there is now some movement in these popular securities which is worthy of notice. The high rates for money have naturally induced the financial agents of railroads to bring forward their loans at more favorable prices for purchasers, and in regard to first-class bonds introduced by bankers of high standing, it will generally be observed that they are offered at lower prices than the same sort of bonds were sold last year at this time. There is every reason to have continued confidence in the value of railroad property in the United States, both from the actual earnings of completed roads and from the well known growth of the interior business of the country, which calls so loudly for increased transportation facilities that the subject has lately become quite notorious. It is true that there have been some defaults in interest, but where roads have been sold under foreclosure the first mortgage bends have generally been covered, and only the second or third class of creditors have suffered loss. It is also very clear that in a majority of eases where railroads have been sold out, the difficulties have resulted from extravagance, fraud, or lack of ability in their construction or management, and not from an actual want of sufficient business to support them, if placed under a strong and economical administration.

From the foregoing remarks it is a natural conclusion that in purchasing bonds it is advisable to select earefully from the various loans offered by houses of good standing; to weigh deliberately the security offered by each enterprise, as evidenced in the location of its road, its prospects for business, and the character of its managers; and we might add, not to be too eager to get the very highest obtainable rates of interest.

In noticing briefly some of the present features in regard to leans on oar market, it must be remembered by our readers that we do not originate any of the facts, but rely upon the statements by the several agents, either directly to us, or in their published circulars or pamphlets.

The Chesapeake and Ohio has been among the most prominent Railroads offering bonds in our market for some time past, and its claims to public attention are based chiefly upon the following points: 1. That it is now a completed through route from the navigable waters of the Ohio river to the James river below Richmond, and that its connections under process of construction at both ends will soon furnish an all rail route from the leading Western cities to Chesapeake Bay. 2. That the cost of construction has been over \$35,000,000, and the first mortgage bonds and old liens outstanding amount to only about \$15,000,000. 3. That it is under the direction of men of established character and financial ability, including Mr. Huntington, Vice-President of the Central Pacific Railroad, as its President, and Mr. A. A. Low. Mr. W. H. Aspinwall, and other leading merchants as directors 4. That its bonds are negotiated by Fisk & Hatch, who have enjoyed a favorable reputation as the financial agents of the Central Pacific and Western Pacific Railroads.

The first mortgage 6 per cent gold bonds are now offered at SS1, and the new 7 per cent gold bonds, secured by first mortgage on the eastern extension from Richmond to Chesapeake Bay, and on the bridge to be built over the Ohio river at Huntington the Western terminus, and by second mortgage on the balance of the whole line, are offered at 90.

The Northern Pacific Railroad, which, in the amount of its loan and the extent of its land grant, Is the most remarkable railroad enterprise ever started in this centry, has recently taken

a very important step in limiting the issue of its 7:30 gold bonds to  $\$30,\!900,\!900,\!$  and deciding that subsequently only 6 per cent gold bonda should be issued.

The following preamble and resolutions show the facts upon which the company base their action:

which the company base their action:

Whereas, The Northern Pacific Company has built and has in operation over five hundred miles of line through favorable and valuable centry; and Whereas, There is a large and growing way and through traffic already assured to the company over the road thus far completed; and Whereas, The company over the road thus far completed; and the same is being rapidly assured to the company over the road dimestic, and sales thereof have been land and placed a large part of it in the market, and the same is being rapidly settled by immigration, foreign and domestic, and sales thereof have been made at an average price of nearly six dollars per are to such an extent that a sinking fund has resulted out of which redemption and cancellation of the company's bonds has been begin; and

Whereas, It is believed that on these results the credit of the company is so established as to render inexpedient the payment of so high a rate of interest as seven-thirty on further issue of bonds:

Resolved, That the soun of the company under present issue bearing seven-thirty interest, of which twenty-one millions have already been sold, be hunted to a total amount not exceeding thirty millions, and no issue of bonds bereafter beyond said thirty intions shall beer a higher rate of interest than six per cent.

Resolved, That the Fluance Committee he directed to arrange with the fix all agents for closing out the seven-thirty loan, as indicated in the pre amble to these resolutions.

This step shows much confidence on the part of the company that they can prosecute their enterprise and obtain money at a lower rate of interest. The leading features in regard to the Northern Pacific Railroad are as follows:

1. The company has an enormous land grant, amounting to nearly 50,000,000 of acres adjacent to its road, in which is included a very large quantity of fine agricultural and timber lands, and an important part of the company's scheme consists in the sale and populating of these lands, through organized effort in introducing and helping settlers, particularly immigrants from foreign countries. The amount of lands already patented to the company isten millions of acres, and the average of sales thus far made has been \$5-66 per acre. We understand that the company has prepared a handsome map on an extended acale, showing the location and character of all its lands, and giving detailed information in regard to them.

2. The company has already completed 590 miles of road, and when the whole line is finished expects to have through connections with San Francisco in addition to its terminus on Puget Sound. 3. The loan is offered by Messrs, Jay Cooke & Co., who, in consideration of their connection with the United States Government loans and the recent Syndicates, and their branch houses in Washington, Philadelphia and Londou, can certainly lay claim to being as prominent as any banking firmfin the country.

Our limited space forbids the notice of other loans to day, but we shall refer to them hereafter. A table showing the principal points of the various leans now offered will be found on the next

Milwaukee & St. Paul.-The following is a copy of the circular recently issued by the Milwankee & St. Paul Railway Company to its stockholders in regard to the issue of \$2,500,000 equipment and bridge bonds:

OFFICE OF MILWAUKFE AND ST. PAUL ROBMAY Co., 1 No. 25 William St. New York, May 15, 1873.

OFFICE OF MLWAUKFE AND St. PAUL RGILWAY CO., No. 25 William St. New York, May 15, 1873.

Sir: The opening of the new read between Milwankee and Chicago, and extension of other lines of the company, having developed a large additional traffle, have made it necessary for the company to produte an increased amount of equipment, and to lay steel rails on the main lines; also to produte addition 1 depot grounds and improve the same. To provide the necessary founds therefor, and also for the building of a bridge zeroes the Mississhippl River, at La Crosse, the Board of Directors have resolved to issue \$2,500,000 of bonds, to be styled "Equipment and Bridge Bonds." which are to be a first lien on the bridge and a second lien on the railways of the company, excepting the La Crosse and Prairie du Chien Divisions, on which the new bonds will be a third fleu. Said bonds are to be \$1,000 each, drawing ten per cent interest, payable semi animally on the 1st of June and 1st of December; principal due June 1st, 1883, the company having the option on ninety days' notice to pay the bond at any time after June 1st, 1883, \$1,500,001 of said bonds are now offered to the common and preferred shareholders, at par and interest in proportion to the amount of shares held by each, say one bond for every hundred shares of stock finasmuch as some persons, especially trustees will probably decline to subscribe. Payments may be made in one sun, or in monthly instalments of 20 per cent each. In all cases, interest will be reckoned at len per cent per annum, being the same as the bonds.

The Directors reserve the right to close this offer at any time. Bonds will be ready for delivery June 1st, 1873.

Respectfully yours, by order of the Board.

RUSSELL SAGE, Vice-President.

The St. Croix Land Grant Refused.—Gov. Washburn, of Wisconsin, has been officially informed by the President of the Milwaukee & St. Paul Railway, Alex. Mitchell, that the Company had decided to decline the St. Croix and Superior land grant under the terms of the recent act of the State Legislature. principal reason assigned for this action by the road is that the time had elapsed within which, under acts of Congress, the road should have been completed and the grant accepted and appro-

The U.S. Circuit Court has decided that the title to these lands is now in the State, and the question has gone to the U.S. Supreme Court on appeal. Mr. Mitchell says in closing that "if hereafter, either by an act of Congress or the determination of the Supreme

The following includes a list of the new loans at present offering, or which have until very recently been offering in this market.

In regard to prices it should be remembered that bonds are always sold with the addition of accrued interest to the nominal price asked.

Cincinnati, Hamilton & Dayton.—The following detailed statement of the business operations of the road for the year ending March 31, 1873, was submitted at the recent annual meeting:

The report of the Secretary shows:

 Gross earnings.
 \$1,204,865 54

 Transportation expenses.
 709,492 82

Leaving for interest on bonds, taxes, dividends, &c.... \$495,372 75

The operating expenses, as shown in detail, have been 58.89 per cent of gross earnings.

The number of miles run by trains earning revenue was 594,574. The income per mile of road was \$20,081 09, and the expenses \$11,824 88.

During the past year two dividends of 4 per cent each have been paid to the stockholders. The net earnings show a fraction

over  $\S_2^1$  per cent on the capital stock.

The large number of trains now running daily between Cincinnati and Hamilton requires, for the more economical and safe working of this section of the road, the extension of the double track from Carthage to the latter named point, which should be built this season, and that the entire track hetween Cincinnati and Hamilton should be laid with steel. It is necessary that the

proper provision should be made for this expenditure.

The managers of the Atlantic & Great Western and Eric Companies having given assurance that the tracks of their roads would, during the present summer, be changed from the aix-foot to the compromise four-foot nine inch gauge, we have refrained from ordering any steel rails for the Cincinnati, Hamilton & Dayton road this season. When this contemplated change is made, we shall have on hand some 8,000 tons of iron, now used for the accompadation of the bread gauge bygings with for the accommodation of the broad gauge business, which, with a small additional cost, would enable us to relay our main track between Ciucinnati and Dayton with the best quality of steel rails.

In the judgment of your Board of Directors, considering the heavy traffic passing over our road, it seems to be a useless expenditure of money to continue the laying of iron rails, and no time should be lost in relaying the entire track of this company with steel, between Cincinnati and Dayton, and the means to accomplish this object should be provided without unnecessary delay.

Your company now owns and controls 345 miles of railroad, distributed as follows: Cincinnati, Hamilton & Dayton, 60 miles; Dayton & Michigan, 142 miles; Cincinnati, Richmond & Chicago, 45 miles; Cincinnati, Hamilton & Indianapolis, 98 miles.

The equipments of the several roads are as follows: Locomotives, 80; passenger coachea, 55; mail cars, 4; baggage cars, 23; caboose cars, 30; box cars, 815; stock cars, 191; platform cars, 562; hand cars, 66.

The Junction Bailroad a line extending from Hamilton to

The Junction Railroad, a line extending from Hamilton to Indianapolis, having, by a decree of the courts of Indiana and Ohio, been offered for sale on the 26th day of November, 1872, was purchased for this company for the nominal sum of \$1,000,000. The actual consideration was expressed in contracts made to facilitate the purchase with the holders of the mortgage bonds of the Junction Railroad Company. One hundred thousand dollars was required to be paid in cash, and has been paid. The remainder of the purchase money was paid in a new issue of bonds, secured by a mortgage on the road, a new corporation having been organized under the laws of Indiana and Ohio, to which the title was transferred. The whole issue of these bonds is \$2,500,000. By the terms of the contract with the holders of the old bonds, this company guaranteed the payment of principal and interest of the new bonds. Of these, \$1,790,000 have been issued and applied in exchange for the outstanding bonds and overdue conpons of the former company. The remainder are applicable to the repair and equipment of the road. The actual cost to this company of 98 miles of road, with rolling stock, real estate, &c., was \$1,890,000. The conditions of the sale having been approved by the contris, the possession of the Junction Railroad was surrendered by the receiver on the 1st day of December, 1872, and passed into the control of the new corporation, organized on the 23d day of December, 1872, under the name of the Cincinnati, Hamilton & Indianapolis Railroad Company. The entire amount of the nominal capital stock in the corporation is the property of and remains unissued in the control of this company; and will represent the ultimate value of the road beyond its mortgage debt, less whatever advances may be required for the repair, equipment and improvement of the road. The remaining mortgage bonds, \$710,000, will be disposed of as soon as satisfactory prices can be obtained for them, and the proceeds used for the purpose of putting the road in good condition.

Ohio Railroad Law.—The Boesel railroad law of Ohio, empo Indianapolis, having, by a decree of the courts of Indiana and Ohio, been offered for sale on the 26th day of November, 1872,

Ohio Railroad Law.—The Boesel railroad law of Ohio, empowering communities to levy taxes for the construction of railroads has been pronounced unconstitutional by a unanimous decision of the Supreme Court of that State. The present constitution of Qhio expressly prohibits the Legislature from ever passing any act to "authorize any county, city, town or township, by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corporation or association whatever, or to raise money for, or to loan its credit to or in aid of any such company, corporation or association." "This constitutional provision has been in operation some thirty years. But the Boesel law authorized counties, &c., to construct, on their own account, short pieces of railroad on lines projected by companies, and then sell or lease them to other parties or to the company. It was even permitted that the sale or transfer might take place before their completion, and counties or townships take place before their completion, and counties or townships were authorized to levy taxes to the amount of 5 per cent of their assessed valuation, respectively, to defray the expenses thus incurred.

The Supreme Court decided that what the Legislature was prohibited from doing directly it could not do indirectly. The Boosel act was a manifest evasion of an express requirement of the Constitution. Counties or townships could no more tax themselves to construct bits of railroads for sale or lease than they could bond for the performance of the same work by a corporation. This decision annuls probably about \$10,000,000 of local railroad bonds issued under authority of the Boesel law.

Another Railroad Bond Fight.—Under the above heading the Chicago Tribune of May 11 had the following:

the Chicago Tribune of May 11 had the following:

"The centest between the people and the railroad corporations is about to be intensified. Under the notorious and infamous act of the Legislature of 1869, the valuation of property for State taxes in 1868 was made a standard in all counties which had or might vote county bonds in aid of railroads; and it was provided that, in case the valuation for taxable purposes was increased beyond that of 1868, the proceeds of the tax upon this increase should be applied to the payment of these bonds. The increase of valuation over that of 1808 has not been very great—the tax resulting therefrom in 1871 amounting to only \$95,000. The whole amount of those bonds outstanding was \$13,593,958, bearing an average interest of over 3 per cent. But the State Auditor has given instructions that the assessment for 1873 shall be according to the full value; and, consequently, taking the valuation has given instructions that the assessment for 1873 shall be according to the full value; and, consequently, taking the valuation of 1868 as a one-fifth valuation of the property in those countles at this time, the tax collected for 1873 in those counties will be divided—20 per cent. for the State Treasury, and 80 per cent. for the bendholders.

"The Constitutional Convention in 1870 put a stop to all such donations; and among the counties which hastened to mortgage the property of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of

The Constitutional Convention in 1870 put a stop to all stend donations; and among the counties which hastened to mortgage themselves to aid a railroad was the small county of Kendall. This county has but nine townships; the majority of its population is in the towns of Fox, Kendall, and Oswego. Fox voted \$14,000, Kendall \$22,000, and Oswego \$50,000. By the United vote of these towns the courty was committed to an additional issue of \$45,000, making an aggregate of \$131,000. The bends all bear 10 per cent. Interest, run twenty years, and were issued to the Ottawa, Oswego & Fox River Valley Railread Company. The road is fifty-seven miles leng, and extends from Streator to Fox River Junctien. The company in addition to the \$131,000 of bonds received from Kendall county, received from towns in Kane, LaSalle, and Marshall counties, bonds to the amount of \$323,000, or a total amount of local aid of \$454,000. In addition to this, it issued its own bonds to the amount of \$1,260,000, bearing 8 per cent. interest, these bonds being secured by first mortgage on the road. This issue was in excess of \$22,000 per mile. The company, therefore, had the proceeds of \$1,260,000 of its own bonds and \$454,000 of county and town bonds. Its capital stock (unpaid) is probably not less than \$2,000,000. The directors then leased the road in perpetuity to the Chicago, Burlington & Quincy Railroad.

directors then leased the road in perpetuity to the Chicago, Burlington & Quincy Railroad.

"The people of Kendall county have taken this matter into consideration, and claim that the leasing of the road in perpetuity to the Chicago, Burlington & Quincy Railroad Compuny has vitiated the contract, or in some other way released them from paying the bonds or paying any more interest. Carrying this conclusion into effect, they have omitted to pay the interest, and now the bond-holders have instituted suit upon the coupons to compel them to do so. We suppose that in the present state of public feeling the payment of interest will be stopped until this matter shall have been judicially settled, and perhaps longer. In the meantime, the other towns in the other counties, having an equal interest in the matter, will avail themselves of any defense that Kendall County may establish. This resistance to any further payment of interest on these railroad aid bonds is not confined to Kendall County, but is showing itself in various parts of the State." County, but is showing itself in various parts of the State.'

Grand Trunk (Canada).—The necessary aid having been obtained from the Dominion Parliament at the late session, the officers have proceeded to make the preliminary arrangements for omeers have proceeded to make the preliminary arrangements for carrying out the objects contemplated in what is known as the "McEwen" scheme. The money to fulfil the plan has been raised, and is now at the credit of the company. It amounts to \$10,000,000 in gold, and is to be expended on the following objects:

1. Narrowing the gauge of the entire line to four feet eight and one-half inches, to make it accord with the slandard American gauge on this continent.

gange on this continent.

To lay steel rails over the whole extent of the line instead of iron.

3. To fully complete the ballasting of the line.

4. To lay in about forty miles of additional sidings at various points to accommodate the increasing traffic.

points to accommodate the increasing traffic.

5. To provide such facilities in the way of extra station accommodation as may be necessary at the different points on the line.

6. To largely increase the existing rolling stock.

7. To build a large and commodious passenger station at Montreal and a grain elevator of the capacity of 300,000 bushels at Sarnia, and generally to put the entire system of the Grand Trunk Railway in a first-class condition, both as regards its road-way and rolling stock in every respect. way and rolling stock in every respect.

Texas & Pacific Railroad.—The annual report of the Directors of the Texas & Pacific Railroad Company was duly submitted to of the Texas & Pacific Railroad Company was duly submitted to the stockholders at the annual meeting recently held in this city. Operations are in active progress at different parts of the line. The road has been extended from Longview west to Dallas, from Marshall via Jefferson to a point near Tenarkana, and from that point west to Sherman. The grant of \$6,000,000 of bonds by the State of Texas required them to complete the road from Marshall, west, and Tenarkana, to a point near Fert Worth, by January 1, 1864. Four handred miles had already been graded. The route west of Fort Worth had been thoroughly developed, but not yet

definitely located, except a portion of the San Diego division. survey was made of the country between San Diego and the Colorado River, and the route entering San Diego from the direc-Colorado River, and the route entering San Diego from the direction of San Gorgonia River was adopted. Work has been commenced at San Diego. A contract has been concluded with a construction company, and they saw no reason why the entire road should not be finished in five years. The summits to be crossed on this line are about thirty-two per cent, less than those on the present Pacific roads. No train will be delayed from snow or other obstruction. The entire rail transportation will be less than eighteen hundred miles. The lines approaching the road from St. Louis, Caire and Memphis, via Little Rock and Fulton, are fest suppraching competion, and will form connection during are fast approaching completion, and will form connection during thu fall. Arrangements are being perfected for the completion of the road from Monroe to Shreveport, and negotiations are also pending that will probably result favorably to the construction of the line from Shreveport to New Orleans, via Baton Rouge.

Pennsylvania Rallroad Stock.—The N. Y. Times of Wednesday says: "Our Philadelphia quotations to-day report Pennsylvania Rallroad stock at  $1084(@108\frac{1}{2})$  per cent. This price so soon after the allotment of \$18,000,000 new stock reflects the confidence which our Pennsylvania neighbors continue to manifest in their great property. Of the \$18,000,000 new allotment, only one-half, or \$9.000,000, was called in by the 24th of May instant, with the privilege of full payments if desired by the old stockholders, to whom the allotment was assigned. We understand, through private sources, that the amount paid in is already \$12,000,000, leaving only one-third, in place of one-half, to be paid in next Fall. The stock of the company is quoted in London at figures in sterling money, equal to the highest price in Philaat figures in sterling money, equal to the highest price in Philadelphia. There is a very large foreign interest held in the bonds and stock of the concern."

New Haven, Middletown & Willimantic.—The semi-annual interest on the \$3,000,000 of first-mortgage bonds, which was due May 1, has not yet been paid. It is said that the parties who are completing the road will probably pay this soon, if certain floating debt creditors will renew their loans to the company.

The whole length of the road from New Haven to Willimantic

is about 52 miles. The capital stock is \$3,000,000, much of which is held by the towns along the line. There is some pretty heavy and expensive work on the line, and the bridge across the Connecticut at Middletown, which is 1,260 feet long, cost nearly

\$500,000.

It is said that \$250,000 to \$300,000 is required to complete the ballasting et the road, build station houses, &c., and provide the necessary equipment that the road may run through trains this summer.

Des Moines Valley R. R.—The foreclosure suit against the D. M. V. RR. Co. has been decided in favor of the bondholders, and a decree of foreclosure and sale directed to be entered upon the 30th inst. It is expected that a committee of the bondholders, appointed in pursuance of an agreement published in THE CHRONICLE Oct. 5, 1872, will purchase the railroad, and organize a new company. The suit is upon the first and Land Grant mortgages, of which Clark & Barling and Coudrey & Gilman are trustees.

Illinois & St. Louis Bridge.—At the late annual meeting of this company in St. Louis, a report was made by the President.

The work on the bridge has been much delayed by the difficulty of obtaining material for the couplings. It has finally been decided to use wrought iron instead of steel for the couplings for the upper members of the arch.

The contract for the cent entreed has been awarded to the

The contract for the east approach has been awarded to the Baltimore Bridge Company, and is to be an iron treatle work. Work on the west approach has been resumed, and is being vigor-

ously prosecuted.

The receipts of the company from its organization have been as 

 follows:
 \$3,205,220 00

 Payments on stock subscriptions.

Mobile & Northwestern.—The City Council of Mobile has refused to adopt the report of its committee recommending the repudiation of the bonds issued in aid of this road. A resolution was adopted r questing the Mayor to call upon the trustees, who hold the \$700,000 in bonds in trust, to be issued hereafter, to return them to the city. It is not thought that the request will be complied with. The interest on the \$3.0,000 already issued is to be paid, a tax having been levied for that purpose.

New York, Providence & Boston Railroad,-Stockholders nre notified that they can subscribe for new stock at par, on the basis of 33 per cent of their holdings at the close of business on July 1.

Jacksonville, Pensaeola & Mobile.—The equity of redemption of this road was sold at Jacksonville, Fla., May 5, to Col. D. P. Hollund.

The Northern Central Railroad Lease.—A committee of stockholders of the Northern Central Railroad report in favor of easing the line to the Pennsylvania Railroad Company,

# The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, May 23, 1873.

It is a fact, not a little remarkable, that with the return of comparative ease in the money market, and the arrival of the season when the demand for merchandise should be brisk, there has been a great pressure to sell, and a decline in prices of many leading staples. The trade reports of the past week record a decline in such articles as flour, wheat, corn, pork, beef, and other cured meats, lard, rosin, spirits turpentine, tallow, sugar, molasses, and rice, with no marked improvement in anything. There appears to be little confidence that holding goods will requite the holder for the expense, trouble and anxiety, and if this spirit continues we may expect to see stocks of merchandise in this port reduced as they seldom have been in modern times, as they were in the first year of the late war.

Provisions have been generally weak, and cut meats and bacon have been quiet. In pork there has been an active business at lower prices, new mess selling at \$17 on the spot, \$16 621@ \$16 90 for June, and \$16 75@\$17 for July, with some business in extra prime on the spot, at \$14. Lard has been quite active at the decline; prime Western has sold for this menth at 9 1-16@ 9\frac{1}{3}c., for June at 9\frac{1}{3}c., and for July at 9\frac{2}{3}c. Bacon has declined to 9c. for long clear, and 9gc. for short clear, for this month's delivery. Cat meats have been generally quiet; in pickled hams there has been some business reported at 114@12c., and bellies at 81701c.; dry salted shoulders have been quoted at 71c. Beef has becu in moderate demand, with an advance in Liverpool. Butter has continued to weaken under excessive receipts, the arrivals in one day amounting to about 5,000 pkgs. Cheese has again declined, and shippers have latterly not generally paid over 154c. for fine factory. To-day pork was less active; new mess sold in a small way on the spot at \$16 75@\$16 871, and old at \$16 25; new mess, for July, sold at an advance to \$17 10. Lard was fairly active and steady, with transactions at 9 1-16@91c. for this month, 9½c. for June, and 9 7 16c. for July. Bacon was more active at a decline; short clear selling for early delivery sold at 9@94c. Cheese was depressed by a further decline in Liverpool.

Tobacco shows a slightly improved demand, with sales of Kentucky leaf for the week about 900 hhds., of which 700 hhds. for export. Prices have remained firm. New crop lngs, 7@8c; do leaf, 9@14c. The movement in seed leaf tobacco also shows a slight increase, but at low prices. Sales have been: Crop of 1870, 200 cases sundries at 9@15c; crop of 1871, 100 cases Connecticut, 50@65c; 100 do New York, 12½c; and 200 do Ohio and 50 do Pennsylvania on private terms; crop of 1872, 82 cases Ohio at 6½c, 138 do Wisconsin on private terms. Spanish tobacco again firmer, but inactive. Sales, 500 bales Havana, at 80c@\$1 03 currency, duty paid.

Freights and charters have been quite active during the past week and rates have, advanced, but the close is less buoyant, owing to a break in the Eric Canal, which will delay the arrival of the needed supplies of grain. To Liverpool by steam late engagements include grain at 8\frac{2}{3}\omega_1\frac{1}{2}\delta\$ for next week, and 9\omega_2\frac{1}{2}\delta\$ for the first week in June, cotton at \frac{2}{3}\delta 716\delta\$, and cheese 45s; and by sail, flour at 2s 9d; to London, wheat at 10d by sail and 11d by steam. Charters for grain and petroleum have numbered fifty or more vessels. Late rates for grain have been \$\sigma_0\sigma_8\sigma_1\frac{1}{2}\delta\$ to Cork for orders (with 7s 9d for vessels to arrive), 7s 6d to Penarth Roads, and 7s 9d from Baltimore to Cork for orders. Petroleum charters include 8s for refined to Elsinore for orders, 7s 9d to Stettin direct, and 6s 9d to a British port direct.

Petroleum has been ruling most of the week at 195c, for refined in bbls., on the spot, and 20c. for June delivery, with crude quoted at 83c.; but to day there was some reaction; refined, in bbls., 193c. on the spot, and crude, in bulk, 9c., with a sale for June at 91c. Rosin has been dull, and strained closes at \$3 05. Spirits turpentine has been down to 45c., but closes at 46 a @47c. Tallow has been easier at 83 @9c. for prime, but closes a shade firmer. Whiskey has advanced to 96c., and on Tuesday 1,000 bbls. sold at 43c., in bond, for export. Hides have been doing better, and dry Buenos Ayres sold to-day at 25½c., gold. The home demand for leather has improved, and equals the offerings at late prices. Crude fish oils continue in demand, with sales of crude sperm at the East at \$1 45@\$1 50, and menhaden, on the spot, at 55c. In foreign fruits there has been more activity, late sales including there has been more activity, into said the layer raisins, 2,000 bags Brazil nuts, 4,000 frails layer raisins. Wool has dates, and 800 bbls. currants, on private terms. become quiet. English copper has declined to 30c. for best Exports of Leading Articles from New York.

The following table, compiled from Cuatom House returns, shows the exports of leading articles from the port of New York since January 1, 1873, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show total values, including the value of all other articles besides hose mentioned in the table.

COTTON.

FRIDAY, P. M., May 23, 1873.

By special telegrams received to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this ovening, May 23. It appears that the total receipts for the seven days have reached 34,044 bales against 41,031 bales last week, 43,770 bales the pre-34,044 bales against 41,031 bales three weeks since, making the total receipts since the first of September, 1872, 3,378,514 bales against 2,641,119 bales for the same period of 1871-72, showing an increase since September 1, 1872, of 737,395 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows:

| Received this week st- | 1873.                   | 1873.                 | 1871.                   | 1670.                   | 1869.                 | 1868.                 |

The market the past week has been quiet for cotton on the spot, though during Wednesday and Thursday there was some improvement in the demand and a steadier feeiing generally. This improvement was due to better advices from Liverpool, but private cablegrams were received stating that the renewed life there was due to reports published in Liverpool of very bad weather in our cotton States. These reports not being supported by late information here from the South, our market lost this improved tone, and to day was dull, and so closed, but without change in the quotations. For future delivery the market has shown similar changes, though they have been more marked. Prices were drooping till towards the close of Tuesday's business. Prices were drooping till towards the close of Tuesday's business, when, with better private advices from Europe, they took an upward turn, and in the courso of Thursday a considerable advance was paid. May contracts, which had sold on Tuesday at 18§, touched 18 21-32, and other months showed a similar or greator rise. Before the close, however, a reaction set in and a partition of the advance gras left. To day prices people waterned greator rise. Before the close, however, a reaction set in and a portion of the advance was lost. To-day prices nearly returned to those of Tuesday and closed weak, sales being made after 'Change at 18½c for June and 17c for December, the latter with seller paying brokerage. The total sales of this description for the week are 69,900 bales, including — tree on board. For immediate delivery the total sales foot up this week 8,240 bales, including 3,109 for export, 4,876 for consumption, 255 for speculation, and — in transit. Of the above 1,137 bales were to arrive. The following are the closing quantitions. bales were to arrive. The following are the closing quotations:

doubtedly had a cold late spring throughout the South, very similar

to our own, and as a general thing cotton is small; but good proto our own, and as a general thing cotton is small; but good progress is now being made, and the present indications are, we think increasingly favorable. In some sections there has been considerable rain during the week, but we have received no complaints on that account. At New Orleans and Mobile the weather has been warm, sultry and wet, raining more than half the week, but at Mobile the latter part of the week has been clear and pleasant; the crop is developing promisingly. This rain does not appear to have extended over the whole State, as our Montgomery dispatch states that it has been warm and dry at that point through the whole seven days. At warm and dry at that point through the whole seven days. At warm and dry at that point through the whole seven days. At Selma there has been no rain except on one day; the crop is developing promisingly. From Columbus we have failed to receive our usual weather telegram. Our correspondent at Macon telegraphs that on three days in the earlier part of the week they had rain, but the balance of the week has been pleasant; the dispatch adds that the young cotton is small, owing to the late spring. At Charleston they have also had some fine showers, which were much needed. It has raised one day at Memphis, hard, but the remainder of the week has been pleasant; planting is now about completed, and the condition of the crop is said to be only moderate. At Nashville it has raised on two days; there are less complaints about the crop now, and it is in a rather more favorable condition. The thermometer at Memphis has averaged 73, at Savannsh 73, Macon 78, Mobile 76, Montgomery 74.

CONSUMPTION OF AMERICAN COTTON TO NOVEMBER 1ST .- A correspondent sends us a statement of the movement of American cotton for the balance of the season, and asks us to point out what 51.395 300,000

Total bales.....he portion of stock now held by English spinners, which they can use if desired...... 977.395 80,000

Total supply for Liverpool to Nov. 1 (24 weeks)... .1.057.395 Total consumption, if we accept Smith, Edwards & Co.'s estimate (33,000 bales per week)..... 792,000

Stock of American in Liverpool Nov. 1 would be...... 265,395
These figures are of course only an approximation. We allow nothing for exports from Liverpool, having deducted that in the estimated future movement from this side; and, on the other hand, it is not at all unlikely that the consumption of American many haloes then it has been during the consumption of American hand, it is not at all unlikely that the consumption of American may be less than it has been during the earlier part of the year, as the Iudia cotton now coming on the market is much superior in quality to the last crop. Of course either very unfavorable reports with regard to our growing crop or very low prices for cotton, might induce spinners to stock up; but otherwise the above may, we think, be taken as less than the stock of American cotton at Liverpool is likely to be at the date specified.

*There was a considerable error in our exports last week as our New Orleans telegram failed to reach us, and we used the Associated Press figures. For the correct figures see our shipping news of this, week.

BOMBAY SHIPMENTS.—According to our cable dispatch received to-day, there have been 43,000 bales shipped from Bombay to Great to-day, there have been 43,000 bales shipped from Bombay to Great Britain the past week and 10,000 bales to the continent, while the receipts at Bombay, during the same time have been 42,000 bales. The movement since the first of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday. May 23:

Shipments this week to Great Con-Britain timent. Total. Britain. timent. Total, receipts. 1873... 43,000 10,000 53,000 47,000 473,000 135,000 608,000 42,000

| Great | Con-| Britain | Con-| Britain | Con-| 1873... | 43,000 | 10,000 | 53,000 | | 1872... | 31,000 | 16,000 | 47,000 | | 1871... | 37,000 | 3,000 | 40,000 | Total, receipts. 608,000 42,000 659,000 33,000 454,000 205,000 351,000 202,000 553,000 53,000

1871... 37,000 3,000 40,000 351,000 202,000 553,000 53,000

From the foregoing it would appear that compared with last year there is an increase this year in the week's shipments from Bombay to all of Europe of 6,000 bales, and that the total movement since Jan. 1 shows a decrease in shipments of 51,000 bales compared with the corresponding period of 1872.

Gunny Bags, Bagging, &c.—The market for bagging has ruled very quiet the past week. Sales as recorded foot up about 2,000 rolls; about 500 rolls Ludlow at 13c. cash, 500 rolls Ludlow at 13c. cash, and 500 rolls Boston at 13c. cash. We hear that 13\frac{1}{2}c. was offered for 500 rolls more Boston, and 13\frac{1}{2}c. was asked. The market is not animated, but it is steady, the price being 13@13\frac{1}{2}c. cash for immediate delivery, and 14\frac{1}{2}@14\frac{1}{2}c. for Summer. There has been but little doing in bags, the market being very quiet. The quoted price of bags is 14\frac{1}{2}@15c. according to weights. The market for butts has met with more activity lately, but at falling The quoted price of bags is  $14\frac{1}{2}$ @15c according to weights. The market for butts has met with more activity lately, but at falling prices. The week opened with the market at 2c. less discount and 2 1-16c. on time. At the close of the week the price may be quoted at  $1\frac{1}{4}$ c. cash. The reported sales for the past week foot up about 3,800 bales, part at 2 1-16c. time, 2c. time, 2c. less discount for cash, 1 15-16c. cash, and  $1\frac{1}{4}$ c. cash. The recent arrivals and telegrams showing increased shipments from Calcutta, have caused the market to decline. The monthly export from Calcutta and consumption in the United States of jute butts, as compiled by J. C. Rogers & Co., brokers, is as follows: by J. C. Rogers & Co., brokers, is as follows:

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 67,378 bales. So far as the Southern ports are concerned, these are the same exports reported by tolegraph, and published in THE CHRON-IGHE last Friday, except Galveston, and the figures for that port are the experts for two weeks back. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

| Total l                                                              | ales.  |

Included in the above totals are, from New York, 400 bales to Cronstadt.

Below we give all news received, during the week, of disasters to vessels earrying cotton from any port of the United States:

About 50 bales cotton and a large quantity of timber were passed, in lat. 37 N., lon. 50 W., by the bark Garstang, at Liverpool May 2.

Research (Br.), from Galveston for Liverpool, which put into New Orleans in distress, and repaired and cleared May 12 for destination, sold 142 bales of her original cargo of cotton at New Orleans, it being badly damaged. The remainder (1,158 bales) is still on hoard the vessel.

VARUNA (Br.), from New York for Liverpool, remained at St. Thomas May 2, awaiting arrival of an agent from England.

GOLD, EXCHANGE AND FREIGHTS .- Gold has flactuated the GOLD, EXCHANGE AND FREIGHTS.—Gold has flactuated the past week between 1178 and 1188, and the close was 1188. Foreign Exchange market is quiet. The following were the last quotations: London bankera', long, 1083@109½; short, 1093@110½, and Commercial, 108.@108½. Freights closed at 5-15d.@8d. by steam and 5-15d.@8d. by sail to Liverpool, 1c. gold by steam and Ic. by sail to Havre, and §d. by steam to Hamburg.

### BY TELEGRAPH FROM LIVERPOOL .-

Livenpool, May 23-5 P. M.—The market opened steady and closed quiet and easier to-day, with sales footing up 12,000 bales, including 2,000 bales for export and speculation. The sales of the week have been 76,000 bales, of which 7,000 bales were taken for export and 4,000 bales on speculation. The stock in port is 751,000 bales, of which 352,000 bales are American. The stock of cotton at sea, bound to this port is 631,000 bales, of which 215,000 bales are American.

Flour has shown less buoyancy of tone the past week-Receipts have been more liberal, and receivers have been inclined to meet buyers readily, yet the decline in the low grades does not exceed 10@15c per bbl. Shippers have taken several thousand barrels of extra Western and State from Spring wheat at \$7.30 \$7.35 and \$7.40. The demand for flour for shipment to the West Indies, in the range of \$7.75@\$8.25, has also been good, and No. 2 and superfine have been salable for the British Previnces. The medium and better grades continue scarce, and although the demand has materially fallen off, prices have remained firm. To day, there was a fair business in low Western extras, at \$6 90 @\$7, but the market was generally quiet.

Wheat has been inactive and depressed, especially for Spring grewths; Winter wheats, whether red, amber, or white, have continued so scarce as to afford little basis for a market report-Receipts of Spring wheat have been moderate; but the shipments eastward for the three weeks ending last Saturday were nearly four million bushels against about a million bushels in the corres ponding period of last year; in the meantime the receipts at the Western markets show a considerable increase, and the visible supply is well maintained. Ocean freights have also advanced, and the foreign advices have been barely steady, so that there has been nothing but the confidence of holders to check the downward tendency of prices. Late sales embrace inferior and rejected Spring at \$1 25@1 40; No. 3 at \$1 50@1 55; No. 2 Chicage \$1 58@1 59; No. 2 North West at \$1 62@1 63; No. 2 Milwaukce \$1 65, and No. 1 Spring \$1 70@1 72; also No. 2 Milwankee, for arrival early in June, at \$1 62 @1 63, with business reported in the same grade at \$1 58 for the last half June and the first half of July. To-day, the market was firmer, owing to

reports of a break in the canal which will require several days to repair, and a moderate business was done at about one cent advance on the above prices.

Indian corn declined on Tuesday to 62c. for new "steamer" mixed and 64c. for "sail" do. afloat, with sales of old at 634@664c. in store and affoat. Since then the market has slightly gained strength, and yesterday "steamer" mixed sold at 621@63c., with prime new yellow at 65c. White corn is firmer. The receipts of corn at the Western markets, as well as the eastward movement since the resumption of inland navigation, have been much smaller than last year. To-day, the market was firmer, but unsettled; good new mixed afloat sold at 64c.; old do. 67@674c. delivered, and new yellow 65c.

Rye has receded a little, a cargo selling at 98c., and small parcels at 95@97c. Barley is entirely nominal. Oats have been doing better, but at the advance the offerings have increased. Yesterday new No. 2 Chicago sold at 51c. afloat, and old do. 55c. in store. White oats scarce, and brought 561@58c. on spot, and 55c. for the last half of June. To-day, the market was very firm, but quiet.

#### GROCERIES.

FRIDAY EVENING, May 23, 1878.

The general distribution of groceries during the past week has been only moderately active. The retail trade continues pretty good, but the season is too far advanced for any great activity in the jobbing demand, and grocers are restricting their purchases to the limited amounts required to keep up their assortments. Sugars have been weaker, and quotations both in raw and refined goods are reduced a fraction. Molasses is a shade lower in the refining grades, but strong in grocery qualities. Tea has not sold very actively, but is held with as much steadiness as at the time of our last report. Coffee is quiet, but very strong.

#### TEA.

There have been no auction sales during the week, and the position of the market is perhaps a shade more favorable than it was at the time we last The unfavorable results of the last sales, as we expected, have effectually prevented the sale of any more goods at auction, holders being indisposed to press offerings through channels which the principal jobbers do not countenance in the present state of the market, and which are only patronized by a class of buyers who will not take more goods than they want at any price. The line business has rather diminished than increased, and the call for invoices is correspondingly light. Oolongs are very weak, and quotations are entirely nominal. Greens show quite as much steadiness as they did last week, and these, as well as Japans, are not quotably altered. The transactions since our last have been 2,500 half chests Greens, 1,100 do. Japans and 500 do. Oolongs.

The indirect receipts at New York, principally overland receipts from San Francisco, have been 47,546 pkgs. since January 1, against 68,454 ast year. Imports at San Francisco from Jan. 1 to April 30, were 188,825 lbs. of Chins, 1,015,630 lbs. of Japan and 200 lbs. of Java tea.

#### COFFEE.

Trade in coffee has been somewhat lighter this week, and this branch of the grocery market is showing the same indications of approaching summer that are visible to the other departments. There has been a fair call from jobbera for all grades, but the sales of the India coffees are on a very limited scale. The restricted transactions in the pale grades are due in a great measure to the reduced condition of stocks. The stock remaining in first hands is chiefly of the high grades, which are not readily marketed, and to fill their wants buyers are forced to substitute the Brazil or Java grades. Maracalho is entirely sold out, not a bag remaining in first bands. The markel is very strong on all grades, and closes with a fair trade inquiry for this stags of the acason. The sales are 3,586 mats Java, 850 hags Java, 534 do. Costa Rica, 556 Porto Rico, 100 Curacoa, sold into consumption, 400 bags St. Domingo ahipped to Hamburg; 1,003 bags Rio, ex "Ontario," 3,151 do. ex "Passidae," 5,840 ex "Ceres," 550 do. ex "Palladin," 18%c.; 1,225 do. ex "Flamsteed," 557 do. ex "J. L. Pendergast," 2,033 do. ex "Foreningen," 3,300 do. ex "Lamoine," 3,300 do. ex "Homely," 4,000 do. ex "Talisman."

Imports the past week have included 10,871 bags Rio, per "Ontario," 4,528 do. do. per "Adolph Fredholm;" 480 do. St. Domingo, per "Weybosset," and 2,757 do. sundries.
The stock of Rio May 22, and the imports since Jan. 1, 1873, are as follows:

* laciades mats, &c., radaced to bags

† Also 7.041 mats.

The grocery basiness has 'fallen off somewhat during the week; and with stocks piling up under free arrivals, refluers have found the market for raw goods rather leaning in their favor. Holders have shown more anxiety to close out their stocks late in the week, and are readily accepting a decline of %@%c, from our last quotations. The supply in the reflueries is not excessive, but with no activity in the demand for reflued goods, it is ample to meet all of the corrent requirements of the trade. The market shows less tone than was noted in our last report. Reflued sugars have been weak, with light sales of all but the most prominent makes, which are still well sold up. Hards are off a fraction, closing barely steady. Softs are also lower, and lack steadiness, especially on yellow sugars, which are dull and very weak. Wo reduce quotations and purchases could be made even below our rates. The sales since our last are 1,533 hhds. Cuba muscovado 7%@8%c.; 696 do. Cristified, 10%c.; 10,129 boxes, loape, 7%c.; 45 hhds Demarara, 8@8%c; 60 do. clarified, 10%c.; 10,129 boxes,

8 1 63 hhds. Trinidad, P. S., on private terms; 63 hhds. St. Croix, 8 4 c, and 2,000 melado.

Imports at New York and stock in first hands May 22, were as follows:

lncluding Havana, at 7c.; centrifugal, at 95.09%c.; molasses 7%.07%c.; clayed

#### MOLASSES.

The inquiry for refining grades of molasses has been light during the past week, and the tendency of the market on these descriptions has been rather in favor of bayers. A cargo of Cuba clayed was sold late in the week at 3ic., and the range on Cuba grades has been reduced about 2c. per gallon for sil descriptions. The stock here, according to latest counts, is 2,194 hhds. Cuba, all new crop, the old stock being'all cleared out. There has been considerable activity in grocery qualities, two cargoes having been closed out at prices within our quoted range. The trade are baying moderately of lots for current distribution, and prices continue to rule fairly steady. The stock of English Islands has been reduced to 127 hhds., while of Porto Rico there is but 140 hhds. New Orleans continues to job fairly, and with only 1,800 bbls. in stock, prices are very firmly held. Syraps sell moderately without any essential change in quoted values. The sales of molasses include 396 hhds., 36 tes. muscovado, 30c.; 150 hhds., 8 tes. Clenfuegos, 36c.; 200 hhds. centringal Cuba, 18c.; 90 do. Porto Rico, in lots, 45@60c.; 208 hhds. and tes. do., 32@38c.; 150 hhds. new Barhadoes, 45c.; 495 hhds., 79 tes. and 114 bbls. St. Crolx, on private terms.

The receipts at New York, and stock in first hands May 22, were as follows:

#### THE DRY GOODS TRADE.

FRIDAY, P. M., May 23, 1878.

The trade has failed to show any improvement during the past week, and dealers have about given up the idea of any revival of business during the season, except, perhaps, as the warm weather, which must soon set in in earnest, may give an impetus to the trade in light fabrics, which has thus far been very unsatisfactory and unusually backward. The retail trade seems generally to be fairly liberal, although [the weather has been too cool to cause much activity. Collections are made with a fair degree of ease, and the finances of the trade seem to be in a fairly healthy condition, netwithstanding the many drawbacks that have been experienced in the way of dull trade, heavy stocks, and low prices. The Spring business will not result in much profit to the trado here, but manufacturers have been rather cautious, and the stocks in the market now are really not excessive, so that the season will close with the market in a good condition to receive Fall stocks. Importers hold a considerable amount of surplus stock, and this branch of the dry goods trade is feeling the dulness of the season as much as any other department. We hear of no suspensions in the trade, nor are there rumors of any serious financial troubles.

DOMESTIC COTTON GOODS.-There has been but little trade in the market during the past week, and we have very few changes to note. The market continues weak, with the general tendency favoring buyers. Brown sheetings and shirtings of the principal makes are steady in the best grades, although the sales are net liberal. Standards remain well sold up, and are fairly steady. Bleached goods are in light request and are somewhat irregular in price, especially on the lower grades. Colored cottons show no essential change, but remain fairly steady on most lines Prints have been quiet; and with cloths weak and lower, goods can be bought at a reduction from the nominally quoted rates. The production of light effects is now very small and stocks are well controlled, but the lateness of the season makes holders willing sellers at prices under the quotations, the latter being insisted upon for the best makes only. Other cotton fabrics are quiet and weak, without essential change.

DOMESTIC WOOLEN GOODS.—The market for weelen fabrics is entirely unaltered and remains very quiet. The tailoring trade are taking out small lots of choice light weight goods, and beyond this there is very little doing in Spring fabrics. The sales of heavy weights to clothiers continue on a limited scale, but the market lacks activity. Prices are very much unsettled and are not likely to become more fully established until the market gains activity and a steady business sets in. The position of the wool market remains unfavorable for goods, it being dull and depressed.

Foreign Goods.—There has been a little more call for choice selections of light dress fabrics and other goods adapted especially to summer wear. These fabrics are offered in liberal amounts and are held with a fair degree of steadiness. Staples are quiet, but are fairly steady. Other goods are more or less irregular, and the market is without notable features not a staffer recorded. The auction houses have no difficulty in getting all the goods they want, but it is not so easy to place offerings at prices at all satisfactory. Quotations are nominal. The imports are light, and stocks are slowly decreasing.

We annex a few particulars of leading articles of domestic manufacture our prices quoted being those of leading lobbers;

#### FOREIGN CAPITAL AND OUR MONEY MARKET.

The fire at Boston yesterday, though so soon arrested, might, in the present sensitive attitude of the public mind, have had a decided effect for a time on the money market but for the close hotiday which was universally observed for Decoration Day. We have yet so lively a remembrance of the drain of loanable capital caused by the last conflagrations at Boston and Chicago, and the long pressure on the loan market has been so severe, that such an announcement on a business day would naturally cause no small alarm. Happily, however, the worst danger was soon past, and the reports of mischief done were so reassuring about noon that the few bankers who were in their offices on necessary business had very little detention from this cause.

The chief point this week in the monetary situation is the firmness with which our securities have sustained them. selves in the European markets, notwithstanding the wide

devastation produced by the panic. By our reports as given elsewhere it will be seen that in the German markets, as elsewhere, Five-Twenties have shown themselves to be the very best foreign securities in which European capital can invest itself. This lesson will not be lost on the frugal multitude of persons of small means on the continent and in England, among whom information is now more accessible relative to our bonds than ever before. Their growing inclination to seek American investments, as we recently showed, has called into existence a number of trust companies, which are at work in England raising capital for the purpose of placing it in our Government, railroad, and other bonds or stocks. We learn that in Scotland a similar trust company has also been organized, and is at this moment actually at work, its capital of one million being all paid up, and its agents busily engaged in selecting securities of a safe and sufficiently remunerative character. Of course the growth of these organized companies will be slow; and it would receive a serious check if, at the outset, they were to make a disastrous choice of securities. The responsible agents to whom the choice is confided have therefore a very important trust to discharge. On their fidelity and good judgment it depends very much whether this foreign demand, which is now so promising for our securities shall be fostered; or whether it shall be checked for months and perhaps years to come.

The dependence of our money market just now on for-ign capital naturally led to the expectation that the rise in the rate of the Bank of England to six per cent, would have produced some trouble here. So far, however, this has not been verified. Perhaps the explanation may be found in the belief that the advance is merely temporary and cannot be sustained. This is confirmed by the rates in the open market which rule 1/2 to 1 per cent. below the Bank rate. This great discrepancy shows that as we predicted two years ago the Bank of England has lost her sovereign control over the rate of interest in the London money market, and cannot be sure that the Joint Stock Banks will follow her rate if she raises it merely as an expedient to attract gold; except, indeed, there should be at the same time a real scarcity of loanable capital. Last year for the first time the London banks deviated from their custom, never broken before, of allowing as interest on deposits one per cent, less than the Bank rate. We presume they are in like manner refusing to tellow this old rule now, for it is obvious that if those banks, with their aggregate deposits of 100 millions sterling were paying five per cent. to the depositors, they would certainly not be disposed to lend as reported at 5@5½ per cent to the public.

The fact is that capital is abundant in London, and in the continental markets also, notwithstanding the Vienna panic,

the rise of the gold premium in Paris and the general inflation of speculative values throughout Germany. Judging from present appearances we may now fairly calculate on a much larger proportion of that capital flowing hither during the next six months than was at all probable before the close of the Geneva Convention. It is not without reason that the public attach so much importance to this prospective influx of foreign capital, for it is really the most important preventive or remedy for some of the formidable monetary evils that trouble us, and it will help us to avoid

# THE BANKS AND THE RECENT RISE IN GOLD.

some of the perils which strew so thickly the rugged path

we are traveling toward specie payments.

The rumors of an intended movement in gold, to which we referred last week, have proved to be well founded. The speculators have made some vigorous efforts, though not with the success that had been predicted. One reason of their partial failure is said to be that the banks are less willing than they have recently been to aid the gold cliques. It is now believed that but for the banks the speculation of the past six months would have been unable to raise the price of gold to the extent actually reached, and the nature of the assistance thus afforded is now being subjected to the severe scrutiny of public opinion. So far as is known, there are only a few of our city banks which have been engaged in this way, and of this small minority the better class are sensible of their error, and are receding from their false position. The part these institutions have played in the recent gold speculation is ably set forth in a pamphlet on Resumption by one of our most intelligent bank officers, Mr. O. H. Schreiner, of the German American Bank, as follows:

The recent, and to the mass of the people incomprehensible. rise of gold in the face of extreme money stringency and a downward tendency in other values, is owing, in no small degree, to the action of a limited number of banks, which receive the gold as collateral security for loans or advances of par or more on same in currency, and include the gold as part of their lawful receive; to that extent depleting their legitimate reserve of greenbacks. This gold could not otherwise be carried at rising greenbacks. This gold could not otherwise be carried at rising rates, under such circumstances; and whether, when thus received as collateral security, it forms either a safe or legal reserve against the immense greenback liabilities of New York banks especially, is a question demanding their careful consideration.

The New York banks are to a large extent the depositaries for the whole country; and should any general emergency arise.

The New York banks are to a large extent the depositaries for the whole country; and should any general emergency arise, requiring them collectively to make use of their reserves, the greenbacks thus parted with could not readily be re obtained, for they have floated away and are scattered through the country; while such gold would not be available to meet currency liabili-tles. The course referred to may be therefore one of present

tles. The course referred to may be therefore one of present interest, but is of very questionable propriety, when viewed with reference to prudence and safety for the future.

Resumption by the banks devends altogether upou resumption by the government; and collateral gold thus held cannot strengthen or prepare them to endure the great strain they must bear during the approach thereto. Gold would be less subject to speculation, and therefore sterdier in price, and would find a more legitimate and lower level but for the course indicated. Their action, therefore, to no inconsiderable extent thwarts one object of the government sales—(viz.: to legulate the supply for legitimate purposes, as well as the price)—aids in disturbing and unsettling all values, in mystifying the people, and causing them to distrust the ability of the Administration to act for the general interest or control the situation. interest or control the situation.
Such aid to "bull" speculators, even though it should continue

uncontrolled by authority of law can, however, be only available up to a certain limit.

The extent to which the banks have been carrying gold for the chaques has been variously estimated at from 5 to 15 millions. The precise figures can of course be obtained if needful by the Comptroller and the Bank Superintendent,  $\mathbf{M}_{^{\circ}}.$  Schreiner, probably out of a conservative desire not  $t_0$  ${f f}$  ster too much the public apprehension, refrains from any conjectures as to the amount of gold which has been curried or the number of banks that have been doing the work. He proposes, however, to stop the mischief by a law framed for that purpose. We object on principle to

possibly be avoided, and we have always contended that the best preventive of such abuses is publicity. Still it is argued that the principle of the law of February 19, 1869, covers the abuse, and should be so declared by an amendatory act. This law of 1869 makes it a penal offence for any National bank to make loads on hypothecated green backs or National bank notes, and punishes the offence by a fine of \$1,000, and by a further fine equal to one-third of the money so loaned. Moreover, the bank officers who make the loan are personally fined in a sum equal to one third of the money so loaned; and the fines or penalties so recovered both from the bank and its officers are given to the party bringing suit. As a question of policy, it is claimed that gold coin should be prohibited from hypotheca tion, equally with greenbacks and bank notes. A new law for this purpose will probably be proposed at the next session of Congress; except, indeed, the agitation of the matter by the press should lead the banks to put a stop to the practice of their own accord. Meanwhile our city banks would certainly have difficulty in showing any right under the National Currency Law to count as reserve many millions of coin which are only hypothecated with them, and are not owned by the banks at all.

But why, it may be asked, is this custom attacked now? It is not a new abuse. It has been quietly practiced for years. The reason is found, we suppose, in the mischievous speculation, to which it has rendered aid without which gold would not have advanced seven per cent since the close of last year. At any rate; this seems the chief origin of the popular apprehensions against these gold loans, and the banks will do well to take heed to such admonitory apprehensions in time. But it is replied that there are many other causes which have been much more prominent than this in producing the rise in gold. No doubt that is true. But those other causes have been partly removed. Conspicuous among these is the recent expan sion of the greenback circulation by Mr. Richardson from a mistaken interpretation of his powers under the legal tender laws. This mischievous error produced such excitement throughout the country, and shook so profoundly the currency and the public credit, that it was much easler than it had been at any time since the war to operate for a notable rise in gold. But this week the error has been cancelled. The currency is now down to its legal maximum of 356 millions, and with the past experience of the Secretary of the Treasury, it can scarcely be expected that that officer or his successors will venture on a repetition of the policy or expanding illegally the currency of the country. Although the first offence has been condoned as a misapprehension and an error, the second might be construed as involving grave personal consequences, which no public official of ordinary prudence would be rash enough to brave.

As to the other well known influences which have been relied on by the advocates of a rive in gold, we have discussed them fully of late. We need therefore say no more in this place than that like those above referred to, they are regarded as having mostly spent their force; and the popular opinion therefore will charge much of the blame on the banks and on the aid they give to the gold gamblers, should the premium on specie receive in the near future any notable upward movement.

## THE BOESEL LAW AND RAILROAD PROGRESS IN ONIO.

'The Boesel law having just been declared unconstitutional by the Supreme Court of Ohio, some persons have too hatily come to think that many sound new railroad enterprises in that State will receive a serious check. We do not believe this: A brief examination of the facts may any new legislative restrictions on banking which and serve to show that the decision will rather help than injure

sound railroads. The design of the Boesel act is well known When passed 23d April, 1872, it was intended to enable projected railroad companies to evade a direct positive prohibition of the Constitution of the State. That instrument in the 8th article of its 6th section declares that "the General Assembly shall never authorize any county, city, town or township, by vote of its citizens or etherwise, to become a stockholder in any joint-stock company, corporation, or association whatever, or to raise money for, or loan its credit to, or in aid of, any such company, corporation, or association."

To evade this express restriction the Boesel law very adroitly contrived three expedients: First, it enacted that "any county, city or township might construct a railroad of its own, and might borrow for that work a sum not exceeding five per cent, of its taxable property. Thus a railroad passing through a belt containing three counties and fiftyseven townships could be voted aid by the united efforts of these sixty different bodies or by as many as could be brought to co-operate in the enterprise. Secondly, when the bonds were thus voted, they were to be awarded to the lowest responsible bidder, "for the whole of said road or to the party who will agree to build the greatest number of miles of road for the sum appropriated." Thirdly, the act authorized the Commissioners appointed under it to lease the road either before or after completion; or they might in their discretion sell the road for such compensation and on such terms as they might agree upon; the lease or sale not being valid till ratified by popular vote. The price at which the sale may be made is left wholly in the disoretion of the local authorities. It may be paid in money or in any other way such as by completing work. To clear up this point and place it beyond doubt the amendatory act expressly declares that "the consideration of the sale or lease may be the construction of the road."

These three points are elaborately discussed by Judge White, who delivered the opinion of the Court, declaring the law unconstitutional on the ground, mainly, that it attempts to reach indirectly an object which cannot be reached directly, being expressly forbidden in the constitution. The points are summed up as follows:

By section 10 it appears that the Commissioners or other public authorities operating under the act, are invested with authority to sell or lease the road either before or after completion. It would be within their power to sell what is called the road at any time certainly after the making of the contract. Now, in such case, what is sold? Substantially the right to use the public bonds to construct a work which becomes the property of the purchaser as fast as it is built. What is to be paid for the right thus sold is to be left to the discretion of the local authorities. It may be paid for by completing work. Indeed, the amendatory act expressly declares that the consideration of the sale or lease may be the construction of the road. This is, in effect, the same as if the purchaser had projected the road to be built on his own account, and the local authorities had agreed to aid him to the amount of the bonds. The act contains no provision requiring the road, after the public funds have been expended, to be completed. Nor in case of sale is there any provision requiring it to be maintained and operated. In the absence of such a provision, neither railroad companies nor others owning railroads can be required to maintain and operate them.—2 Redfield on Rulings, S. 191; 18 Eng. L. & E., 199; 25 Wis. R., 207.

But if the public money should be expended before the making of the lease or sale, the public muthorities are by the net put we

But if the public money should be expended before the making of the lease or sale, the public authorities are, by the act, put, we might almost say, in complete subordination to the railroad company, or parties owning or controlling the other parts which are to make up the whole road. To everybody else it will be as useless as to the county or township whose money built it. If leased or sold at all, it will necessarily be to the parties or company who control such ether parts. The local authorities, under the act, have no alternative but to let the work perish in its incomplete state, or lease or sell it, on such terms as the parties named are willing to acccept.

are willing to accept.

If a line of road is projected through several tow aships or counties, no concert of action is contemplated. The less alog or selling of the part which may be constructed by the bond a prione locality is wholly independent of the action of the other company that gets one link in the line can control or defeat the whole. The transaction which the statute and projected in the name of one of the localities mentioned to be built in part by taxation, and ends with a debt on the locality

for its construction, and, if anything useful has been accomplished, with the road being substantially owned by a railroad company, to be operated or not, or disposed of as such company may find most for its interest. Thus is accomplished by indirection, what it would be a plain violation of an express provision of the constitution to do directly.

It was argued by counsel that even if the tenth section were void, still the rest of the statute would be valid. Against this the Court ruled that "the tenth section in which the authority to sell or loan is found cannot be thus separated in determining the validity of the act, for without that section it cannot be presumed that it would have been passed by the Legislature or acted on by the people. The section constitutes a nec ssary part of the plan or scheme for accomplishing the objects intended by the act." Another argument was that as the Supreme Court had formerly decided that the Cincinnati Southern Railroad act was constitutional, although it authorized the city of Cincinnati to build that road and afterwards lease it, therefore, that counties and townships might combine together to meet as a confederated union the great public want of a railroad, though no one of these townships singly could build more than a small link of this road. To this the Court reply:

The act passed upon in that case is widely different from the one now before us. The latter contains provisions and elementa not found in the former. That act authorized a railroad to be built by a municipality, when it was found to be essential to its interest, as one of its public works. It was to be used and operated as other works of a public nature in which it had a special interest, and which it was authorized to own and operate.

In the case referred to, of Walker vs. The City of Cincinnat, the Court held that it was competent for the Legislature, under the general grant of legislative power to authorize the entire

In the case referred to, of Walker vs. The City of Cincinnati, the Court held that it was competent for the Legislature, under the general grant of legislative power, to authorize the entire construction of such a work by a municipality having a special interest therein, and to empower the local authorities to provide the means therefor by taxation. And further, that a work thus constructed was neither in violation of the express nor the clearly implied prohibitions of article 8, section 6, of the Constitution. That the construction of the work in this manner, however unwiss it might be, did not involve the union of public and private capital or credit, nor the raising of money by the municipality for, or loaning its credit to, or in aid of other parties, incorporated or otherwise. That this is as true in regard to railroads so constructed as it is in regard to water works, gas works, and other improvements of a similar nature which the municipalities may construct, but which require the employment of skill and labor to make them available tor public use.

construct, but which require the employment of skill and labor to make them available for public use.

"The mischief which this section (art. 6, sec. 8) Interdicts is a business partnership between a municipality or subdivision of the State, and individual or private corporations or associations. It forbids the union of public and private capital, or credit in any enterprise whatever. In no project originated by individuals, whether associated or otherwise, with a view to gain, are the municipal bodies permitted to participate in such manner as to incur pecuniary liability. They can neither become a stockholder nor furnish money or credit for the benefit of parties interested therein. Though joint stock companies, corporations, and associations only are named, we do not doubt that the reason of the prohibition would render it applicable to the case of a single individual."

These then are the constitutional limits which restrict in Ohio, the voting of railroad aid from townships or counties. Those municipal bodies may be authorized by the legislature, to build railroads of their own if they are rich enough; just as they may construct their own waterworks, gasworks, or turnpikes, and lease these structures afterwards as a means of supplying a public want. But to unite with private capitalists, speculators, or projectors—to build a railroad in part with public money-to do this in entire dependence on private capital to complete or operate the road when finished, so as to save it from after public uselessness-this is decided to be within the prohibition of the constitution. Moreover, the Court deny that "the public money may be expended for a road which is to be neither leased or sold. The mere expenditure of the amount of public money authorized to be raised in building so much of a railroad as could be built for that sum, without any authority to complete it, or use it, could serve no public purpose," and consequently it could not be built with public funds founded on or derived from taxation.

We need not examine further into this decision of the gourt, Enough has been said to justify the opinion that it

will not be very likely to check the building of any good railroads in Ohio. For in a State where the railroad network is so complete as that of Ohio rallroad enterprises need not rely on town and county bonds if they are likely to pay. And if they are not likely to command a local or through traffic in so pepulous and thriving a community they had better not be attempted. It is evident then that municipal or county bonds such as are now prohibited eight not to be given to railroads which cannot command private capital on their own merits; and if they can command this capital, then such grants of bonds will be needless. In earlier times they may have been indispensable, but those times have passed away in the great State of Ohio, and with them should pass away this and other primitive expedients of railroad finance.

#### CHANGES IN THE REDEEMING AGENTS OF NATIONAL BINKS,

The following are the changes in the Redeeming Agents of National Banks approved since the 22·1 inst. These weekly changes are furnished by and published in accordance with an arrangement made with the Comptroller of the Currency.

| LOCATION.                     | NAME OF BANK.              | REDEEMING AGENT.                                                                                |

[From our own correspondent.]

London, Saturday, May 17, 1873.

The crisis at Vienna, resulting from over speculation in securities, and the depression of the German Bourses, have had considerable influence here, and those etocks which are freely dealt in on this and on the German markets have been pressed somewhat freely for sale. The result has been that prices have declined considerably, though the fall has not been very important, except in Turkish, Erie and Atlantic & Great Western securities. Italian and Lombardo-Venetian shares have been largely offered on foreign account; but there has been ready buying at a decline on this side, and hence any serious fall in prices has been arrested. An apprehension that to pay for these accurities an increased export of gold will be necessary, and that the Directors will be compelled in consequence to further advance their rate of

discount, have had an adverse effect upon the market for home securities, so that the decline in prices on the Stock Exchange has been a general one. It must, I think, be admitted, however, that the crisis at Vienna, so far as its effect here is concerned, has been exaggerated; and it may be asserted that, rather than proving disadvantageous to us, a contrary result is obtained. Germany has during the last two years been speculating largely, and numerous new schemes have been introduced. Many of those schemes have of late collapsed, and in consequence of the liabilities incurred many holders of sound Government stocks. have been compelled to realize in order to acquire a requisiteamount of ready capital to meet existing losses. Surely thatpressure to sell and our ability to buy is a gain to the buyer; and the operations which have been conducted this week will thus: result in a very large profit to ourselves. It is not to be supposed. that English capital is to fly to Germany because the rate of interest is so much higher. On the contrary, the crisis has a detarrent effect, and capital can only be attracted by offering securities in return which are known to be marketable. Even, therefore, if the Bank should be compelled by the German panic to advance their minimum, we should hold in return for capital sent away some of the best foreign stocks, for which Germany to re-acquire would have to pay a much higher price than that at which they disposed of them to us.

The Bank return published this week is not favorable, the proportion of reserve to liabilities being 32 1-8 per cent, showing a slight diminution of strength. The Bank, however, have not advanced their rate, the minimum quotation being still five per cent. The money market is somewhat unsettled, as an acvance is expected at any moment; but as the bank do not perceive that there is any unusual activity in the demand for money from commercial sources, and as they appear to look upon the German crisis as temporary, it is yet possible that the present rate will be sufficient. They are rejectiog, as far as lays in their power, all paper having a finance appearance, and no doubt they consider that as money is now at the satisfactory point of five per cent, English capitalists will be less disposed to meddle with the French indemnity. There is, however, a good demand for gold for export, and our importations will be small for some time to come. It is inferred, therafore, that resort will have to be had to the Bank to supply the necessities of Germany. It may be observed, nevertheless, that the German demand is not pressing, and the following table extracted from the Board of Trade returns will show that though there has been considerable activity in the bullion market this year, the balance against us is only about £1,800,000.

IMPORTS AND EXPORTS OF GGLD AND SILVER FOR FOUR MONTHS.

|            | Imports.                         |                                  |                                  |
|------------|----------------------------------|----------------------------------|----------------------------------|
| GoldSilver | 1871.<br>£5,513,843<br>6,100,229 | 1872.<br>£3,017,579<br>4,211,703 | 1873.<br>£5,936,938<br>8,931,601 |
| Total      | £11,614,072<br>Exports.          | £7,259,262                       | £9,968,539                       |
| Gold       | £2,835,369<br>3,526,031          | £5,891,627<br>5,200,855          | £7,858,574<br>3,426,138          |
| Total      | £6,361,400                       | £11,095,482                      | £11,284,712                      |

At this period last year the balance against us was much greater, and though the Bank of England has lost about £3,000,000 in gold since the commencement of the year, that loss has been to a large extent occasioned by the large amount of coin in circulation in the provinces and in Scotland.

Money has been in fair demand during the week, and there has been no pressure. Business under the Bank rate is quite exceptional. The quotations are as follows:

| Per c                 | ent. | Per                            | cent. |

arrested. An apprehension that to pay for these accurities an increased export of gold will be necessary, and that the Directors and prices are generally lower. Consols, United States government securities, and indeed all sound stocks having experienced

a downward movement. The rates charged for carrying over stocks to the next account have increased, 7 to 8 per cent having been demanded for advances on the best foreign securities. The principal change has been in Erie, which has been as low as 46. The following were the closing prices this afternoon of consols and the principal American securities:

The weather has been bright and dry, but cold easterly winds have prevailed, and there have been slight frosts at night. The wheat crop, however, is favorably spoken of, and though winter wheat is a thin plant, yet it looks promising, while spring wheat is likely to be a full average crop. The diminution in the area of land under wheat is new believed to be very small, the spring having been so dry as to enable the farmers to sow largely of spring descriptions. In fact, despite the apprehensions of many, it is probable that there is much more land under cultivation this season than usual, as the weather has now been most favorable to the farmer for many weeks. An experienced farmer mentioned in my presence on the corn market the other day that a cold May, if dry, was beneficial; and, if so, we have precisely the weather required, for this week we have had a cold easterly wind, with a bright sunshine. There is, nevertheless, a prospect that the harvest will be rather later, and this is an important matter when it is well known that England and the Continent are deficient. The wheat trade during the week, notwithstanding the large quantity of wheat affeat, has been firm, and an advance of about one shilling per quarter has been established in prices. The condition of the English wheat has somewhat improved, owing to the dry weather; but there is still a great deficiency in the intrinsic merits of the crop, the proportion of sprouted grain coming forward being still considerable.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz. from September 1 to the close of last week, compared with the corresponding periods in the three previous, years:

|             | IMPORT     | rs.        |            |            |

The wool sales have been well attended during the week, and there has been keen competition amongst French buyers for greasy Adelaide wools, which is now about 1d. per 1b. dearer than at the close of last sales. Cape wools, however, in conse-

quence of the large quantity of South American wool offering at Antwerp is dull, and is about id, per ib, cheaper,

Bills on Vienna and Trieste were difficult to sell at the commencement of the week, but a recovery has since taken place. There has been a good demand for bills on other continental cities, and the rates are less favorable. As regards bullion the chief feature has been a demand for gold on German account, necessitating some moderate withdrawals of gold from the Bank. The following prices of bullion are from the circular of Messrs. Pixley, Abell, Langley & Blake:

Postscript-Saturday, Noon .- The directors of the Bank of England have announced a further rise in the bank rate, and the official minimum is now 6 per cent. The movement was expected indeed, most persons were of opinion that that course should have been adopted on Thursday lust, for the state of the bank account would have justified that course. To-day £189,600 has on balance, been taken out of the bank for export to Germany, making nn actual withdrawal since the date of the last return of £288,000. These withdrawals have naturally weakened the position of the bank, and hence the advance which has been announced to-day is not only prudent, but necessary. It is understood that the amount of financial paper affoat is still very considerable, and many persons believe that the difficulties of the situation have not yet been surmounted, but at the same time there is no reason to believe that they will in any way be of a permanent character so far as this country is concerned. The rates of interest allowed by the joint stock banks and discount houses are 4½ for money at call, 5 per cent if with 7, and 5½ with 14 days notice of withdrawal.

#### COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show an increase in both dry goods and general merchandise. The total imports amount to \$8,585,218 this week, against \$7,938,263 last week, and \$6,387,442 the previous week. The exports are \$5,205,204 this week, against \$5,482,894 last week, and \$5,998,713 the previous week. The exports of cotton the past week were 15,216 bales, against 11,065 bales last week. The following are the imports at New York for week ending (for dry goods) May 22, and for the week ending (for general merchandise) May 23:

Ocean Mali Service .- An article in the Commercial Advertiser ppon this subject, contains some important statements in regard to the relative merits of the lines competing for the mail service. We quote as followe:

"It seems to be the endeavor of a morning contemporary to work up some excitement respecting the carriage of the Saturday European mail. We have sifted the matters, and find the facts to be that the Postmaster General, from statements made by the Inman line, deemed it desirable to satisfy himself whether or not the White Star line was in a position to curry out the contract in the future, which has been interfered with by the loss of the

Atlantic.

"From the figures before us, we find that notwithstanding the fearful winter we have just passed through, up to the 1st of April—the day of the Atlantic's loss—the White Star Line had

April—the day of the Atlantic's loss—the White Star Line had but two failures to despatch a mail steamer, while the rival line (Inman) on four occasions were unable to do so on Saurday, vlz.: Nov. 30, Jan. 4, March 15, and March 22.

"Our contemporary gives a list of delays to the White Star steamers, which is misleading and unfair. Owing to the great speed of the White Star boats, many of our merchants had begun to look upon Saturday as the mail of the week, and reserved all their correspondence for it. On three occasions the Saturday mail between the 1st of October and 1st of April, was delivered mail, between the 1st of October and 1st of April, was delivered in London ahead of the mail of the previous Wednesday, and on four occasions, at the same time, out of twenty passages, the White Star boats sailing hence the same day, arrived thirteen times in advance of the Imman boats, and on most of these trips over a day in advance. The argument that the Imman Line sets forward, viz.: that had it been the mail carrier such discrepancies and other than the carrier such discrepancies. would never have arisen, is absurd, as a reference to the following comparative passages to the westward proves that, notwithstanding the fact that the Inman boat had the incentive of the British mail contract and a large subsidy, their boats ran far behind the Whlte Star steamers:

"This detention to the maile causes much inconvenience to New York, especially, as partial despatches come by the White Star steamers, which, without the incentive of being mail carriers, have no fifteen consistent reached Now York in American Company received Now York in American Company received Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Company and Now York in American Com have, on fifteen occasions, reached New York in advance of the mail steamer sailing the same day, on six occasions have arrived two days in advance, and on six occasions over a day: whilet the press almost weekly acknowledge the favor of the latest news furnished by the White Star management.

"The public are not concerned in any petty rivalry between two greet companies, which ought to be above and facilities the

"The public are not concerned in any petty rivalry between two great companies, which ought to be above such feeling, but in the one question—the expedition of mail matter. The White Star Line is ready to guarantee this beyond all reasonable doubt, in the future, with but one exception. It can be easily understood that a loss of such magnitude as that of the Atlantic should some comparance that a regular service. To change should cause some embarrassment lu a regular service. Te change

the annoyance of the early closing of the mails on Saturday; the management of the White Star Line have on several occasions detained their steamers on this account from an early morning to an evening sailing, the tide compelling them to wait inside the bar until the early tide on Sunday morning, and it is manifestly unfair to bring up against the line what has been a public benefit.

"It is noteworthy that the only complaint that has been a public beneat.
"It is noteworthy that the only complaint that has been made to the Department comes from the Inmau line, who were deprived of the United States mail flag by the White Star line, on the 1st of October last; and the fact must not be overlooked that the Inmau line refused to carry the mail when the Department could only offer the amount of the ocean postages, and the Postmaster-General was only relieved from this predicament by the action of the Brownen line.

the Bremen line.

"We most heartily indorse the petition from the leading bankers and merchants of the City of New York, who are the most deeply interested in the mail, and whose voice should be heard above the clamers of rivalry, sustained, as it is, by their correspondents on the other side of the Atlantic; and we trust that the Destructure Georgia will not ignore their claims. In regard to the Postmaster General will not ignore their claims. In regard to the 'Gaelic' and 'Belgic' (sister ships), which the line undertake to have available as reserve steamers, the weekly line being com-plete for service, the following extract from a Liverpool paper

may be interesting:
"Yesterday the latest addition to the fine fleet of the Oceanic "Yesterday the latest addition to the fine fleet of the Oceanic Steam Navigation Company arrived in the Mersey from Belfast Longh, where she has been built in the yard of Messrs. Harland & Wolf. Though not quite so large as her recent predecessors, she is built upon a similar graceful model, with a view to strength, as well as speed. She is 395 feet in length, is of 2,700 tons register, and her engines, constructed with all the latest appliances and improvements, are of 400 nominal horse power. She is named the 'Gaelic,' is four-masted, has a turtle back, and all the distinguishing characteristics of a White Star steamer."

"The new bosts, 'Germanic' and 'Brittanic,' which are to be wonders of marine architecture, are being rapidly completed, when

wonders of marine architecture, are being rapidly completed, when the line will be placed beyond such unworthy attacks as have lately come to our notice."

—There is now an important class of Western railroad securities, very considerable in number and amount, which are dealt in almost exclusively in Bosion; included among them are the stock and bonds of the Chicago, Burlington & Quincy, the Burlington & Missouri, and the Michigan Central Railroads, and a large number of branch roads connecting with the above, and having in most cases a "traffic guarantee" for the purchase of their bonds. This traffic guarantee or agreement has become very popular in some parts of the West, and it consists in an agreement by one road, generally an important trunk line such as the Chicago, Burlington & Quincy, to pay to a branch or connecting road a certain percentage (usually 30 to 50 per cent) of the gross earnings made on business received from the latter; the amount thus paid to be applied to the purchase of the mortgage bonds of the There is now an important class of Western railroad securiings made on business received from the latter; the amount thus paid to be applied to the purchase of the mortgage bonds of the branch road. Messrs Lee, Higginson & Co., bankers, No. 40 State street, Boston, with their branch house of Chase & Higginson in New York, make a specialty of dealing in the stock and bonds of these companies, and have issued a neat pamphlet giving the particulars of nearly fifty different issues of stock and bonds, the most of which are but little known on the New York more less. most of which are but little known on the New York market.

-The attention of investors is directed to the card of E. —The attention of investors is directed to the card of E. Sanford, Esq., solicitor, at Morris, Ill. Mr. Sanford has for many years made a specialty of loaning money at 10 per cent. interest on farm property in Illinois, and informs us that the loans so made by him have invariably proved to be sate investments. The regular rates of interest at the West are much higher than in this part of the country, and it is stated that loans can be placed there on the most unquestionable security at 10 per cent interest, and all the costs of searching title, etc., are borne by the borrower. Mr. Sanford publishes a neat little pamphlet, giving all the details of his method of transacting business, a description of the details of his method of transacting business, a description of the papers used, etc., and for parties who have money to lend we should think it would be well worth their while to procure one of his pamphlets, and examine into the matter.

—The City Bank of Houston, Texas, has just declared a dividend of 10 per cent. from the net earnings for the six months ending April 30. The card of the bank will be found in our advertising columns.

Deposit accounts of Mercantile firms and Individuals received; all facilities and accommodations granted usual with City Banks; In addition thereto 4 per cent interest allowed on all daily balances, Bills of Exchange drawn on England, Ireland, Scotland and the Centinent; Travelers' and Mercantile Credit issued available *2 2 1** throughout the world.

# \$5,000,000

TOLEBO, WABASH & WESTERN RAILHOAD CO.'S SEVEN PER CENT MORTGAGE BONDS.

PRINCIPAL AND INTEREST PAYABLE IN GOLD COIN.

the purchase of steel rails. Principal due 1893. Interest coupons payable February 1 and August 1 in the City of New York.

The Directors of this Trunk Line, between Teledo and St. Louis, comprising with its branches over 600 miles of completed road, have decided, in order to accommodate the great increase of traffic, to relay the ENTIRE LINE WITH STEEL RAILS; and for that

purpose have issued \$5,000,000 of 7 per cent Mortgage Gold Bends.

The steady increase of business over this line will be rapidly and greatly augmented by its connection with the Canada Southern Railroad (which will be open for traffic in a few weeks), rendering the substitution of steel rails a necessity.

The net earnings for the year 1871 and 1872, after paying the interest on the Mortgago debt of the Company, were largely in excess of the amount necessary to pay the interest on this

The road has no floating debt. All the proceeds of these Bonds go to the permanent improvement of the property, experience having proved that by substituting steel for iron rails on roads doing so heavy a traffic, the "saving" alone, without any allowance for increase of business, is sufficient to pay off at least four times the amount of this Mortgage before maturity. The advantage of employing steel rails is so great that all our Trunk Lines are adopting them, to the exclusion of iron ones.

As the Bonds will only be issued as fast as the ralls can be laid, we now offer for sale but \$1,000,000, AT NINETY, AND

ACCRUED INTEREST IN CURRENCY.

The large earnings of this road, with lts future prospects, make this Bond, in our opinion, an undoubted security.

WINSLOW, LANIER & CO., 27 Pine street. PERLINS, LIVINGSTON & POST, 21 New street.

#### BANKING HOUSE OF JAY COOKE & CO.,

No. 20 WALL STREET.

NEW YORK, May 27, 1873.

The Northern Pacific Railroad Company having determined to close its 7-30 First Mortgage Gold Loan at an aggregate not exceeding thirty million dollars, and thereafter to pay no higher rate of interest than 6 per cent. on further issues of its bonds, the limited remainder of the 7 3-10 loan is now being disposed of through the usual agencies.

As the bonds of this issue are made receivable in payment for the Company's lands at 1.10, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.

The Company has more than 500 miles of its road built and in operation, has earned title to nearly ten million acres of its land grant, and sales of lands have thus far averaged \$5 66 per acre.

All marketable securities are received in exchange for Northern Pacifics at current rates.

JAY COOKE & CO.

#### BANKING HOUSE OF FISK & HATCH, 5 NASSAU STREET.

NEW YORK, May 29, 1873.

The present high price of Government Securities is increasing the demand for first-class railroad bonds; and it is not reasonable to suppose that the present difference of from TWENTY to THIRTY per cent can be obtained for any great length of time.

We are recommending for exchanges or for new investments: The CHESAPEAKE AND OHIO SEVEN PER CENT MORT-GAGE BONDS, interest payable January and July, principal and interest payable in gold in New York City.

Only \$3,000,000 of these bonds will be offered for sale at present. Price 90 and accrued interest.

They are amply secured, and a very desirable investment. The proceeds will be used in adding largely to the present equipment, and in extending the line from its present tide-water terminus at Richmond to deep water on the Chesapeake Bay, where the largest steamers in the world can load and unload alongside the cars.

Also, the CHESAPEAKE AND OHIO SIX PERCENT BONDS, interest payable May and November; these bonds are issued in denominations of \$100, \$500 and \$1,000. Price \$8 and accrued interest. The road, 420 miles in length, is now completed, and the business offering is very large, and increasing daily.

We have just published a pamphlet giving a full description of the Chesapeake & Ohio Railroad and Its advantages, and particular information concerning the agricultural, mineral and mechanical resources, the remarkable coal and iron deposits, and the opportunities for settlement, investment, and the employment of capital and labor in various industries along its route, copies of which may be had, free of charge, upon application in person or by mail.

Also, the WESTERN PACIFIC SIX PER CENTS at the market price, which is to-day 95, flat. These bonds are of \$1,000 each; interest payable January and July. This road having been consolidated with the great CENTRAL PACIFIC, the payment of its bonds, principal and interest, is assumed by them.

We continue to deal in Government and Central Pacific Bonds receive denosits on which we allow interest, make collections execute orders at the Stock Exchange for cash, and conduct a general banking tusiness.

FISK & HATCH.

THURSDAY, May 29, 1878-6 P. M.

The Money Market and Financial Situation....The Legislature of New York State at its present session has passed a law making the 30th of May (Decoration Day) a holiday, and in pursuance of this law the city banks and places of business generally will be closed on Friday. To-day the following bill was passed by both houses of the Legislature, amending the second section of the law lately passed making Decoration Day a holiday, so that it shall read as follows:

"Section 2. Whenever any of the holidays meutioned in the first section of this act shall fall hereafter upon Sunday, the Monday next following shall be deemed and considered as the first day of the week, or Sunday, and a public holiday for all or any of the purposes aforesaid, and all bills of exchange, checks and promissory notes made on or after the 22d day of May, 1878, which shall, with or without grace, become due and payable on any of the days mentioned in the preceding section or on any any of the days mentioned in the preceding section or on any Monday kept as aforesaid as a public holiday, shall be deemed to be due and payable on the business day next succeeding the day of their maturity."

Several important events have occurred during the week which might have been expected to exert an unfavorable influence iu financial circles, but which in fact have had comparatively little Among the principal occurrences we may enumerate the the change of Presidency in France; the failure of several large lumber firms in Albany and this city; the commencement of a suit against the Union Pacific Railroad Company by the U.S. Government; the financial difficulties of the New York & Oswego Mioland Railroad; and the slightly unfavorable Bank statement on Saturday last, May 24.

Money on call has continued easy in our local market at 5@7 per cent, with a few transactions as low as 4 per cent, except on

when rates were temporarily advanced to 7 per cent

In commercial paper there has been less activity, although it does not appear that the farlure of Messra. Dedge & Co. and several other firms in the lumber business has had any particular influence, as rates for paper are steadily becoming easier and are now quoted at 7@71 per cent for prime names.

Advices from London Indicate a quiet state of affairs, the Bank having gained this week £129,000 in bullion, and the rate of dis-

count remaining unchanged at 6 per cent.

The last weekly Clearing-House statement of New York City banks, rendered May 24, showed a decrease of \$898,800 in the excess of reserves above the legal requirement, the whole of such excess being \$4.071,475. The total liabilities stood at \$237,256,-100, and the total reserves at \$63,385,500.

The following statement shows the changes from previous week and a comparison with 1872 and 1871:

1873

United States Bonds -Government Securities have been quite firm at the high prices recently established, although busiquite firm at the high prices recently established, although business has been rather less active then previously noticed. The range of prices is now relatively high, and without a further advance in gold we should hardly look for much higher prices in governments at the present moment, though it is more than probable that the gold price of U. S. bends will take an upward movement at some luture day, which will be the commencement of a permanently higher scale of prices. A telegram from of a permanently higher scale of prices. A telegram from Washington states that \$5,000,000 of the called 5.20 bonds have been received at the Treasury, and a dispatch from London announces the safe arrival of the Treasury agents who carried out 10,000,000 of the new bonds for the Syndicate.

State and Railroad Bonds.-State bonds have, as a general

State and Hailroad Bonds.—State bonds have, as a general rule, been dull. Louisiana bonds have advanced 5@6 per cent on the announcement that the State interest due June 1 and July 1 would be paid, including, we presume, all interest now overdue. Virginia consols are firm, and the hope is confidently entertained that the State will regularly pay interest on two-thirds of her debt under the laws now in operation.

Railroad bonds have met with a tolerably well distributed business at the Board, but the volume of transactions is small, except in Union Pacifics. The land grant and income bonds of the latter company have been seriously depressed by the suit just commenced on behalf of the U.S. Government against the Union Pacific Railroad Company, Credit Mobilier, etc. What ever may be thought of the real merits of this action, considered either legally or politically, there can scarcely be two opinions as to the fact that it is working great injustice and serious injury to a large number of innocent holders of these securities who have purchased them of late years in the open market with the utmost good faith many paying full value for them.

The New York & Oswego Midland Railroad has recently experienced some financial difficulties, which it is said will all be settled in a short time, by the subscription of \$4,000,000 on the part of a syndicate of leading bankers, who have the subject under consider-

The election for directors took place, and the following gentle

men were elected: George H. Bradbury, T. W. Park, J. D. Smith, J. M. Burke, C. J. Osborn, Russel Sage, George S. Scott, George

J. M. Burke, C. J. Osborn, Russel Sage, George S. Scott, George H. Palmer, Rufus Hatch. Total votes, 151,802.

The new Board of Directors met, and the following organization was made: President, George H. Bradbury; Secretary, Theo. T. Johnson; Treasurer, Henry Smith. Mr. W. F. S. Bellows remains the Vice-President.

the Vice-President.

The Gold Market.—There has been more than the usual interest shown in gold, on account of the alleged manipulations of the clique, and the price has ranged during most of the week from 118 to 118\frac{1}{2}, touching 117\frac{1}{2} on Tuesday, and closing to-day at 118\frac{1}{4}. It is reperted that the clique controls a very large amount of gold, and the usual predictions are made of a corner to force up the price or an artificial scarcity to be made in cash gold for the sake of exacting high rates from borrowers. On gold loans to-day the rates ranged from "flat" to 5 per cent. for carrying, and time leans we have neticed this week quoted as follows: 30 to 60 days, 3 16@\frac{1}{4} for use; 90 days, \frac{1}{2}@\frac{1}{2} for use; four months, \frac{1}{2}@\frac{1}{4} for use; six months, \frac{1}{2}@\frac{1}{4} for use; and all the year, \frac{1}{2}@\frac{1}{2} per cent for nse. At the Treasury sale of \frac{1}{2},000,000 to-day the total bids amounted to \frac{1}{2},616,000. Customs receipts of the week have been \frac{1}{2},624,000. been \$1,624,000.

The following table will show the course of the gold premium each day of the past week:

|               | Open-    | Low-  | High- | Clos- |               |                    | nees.              |

|               |          | -     |       |       |               |                    |                    |

with a tendency towards easier rates, and business was done to-day at a concession of \( \frac{1}{2} \) under the nominal prices quoted for prime sterling bills. Merchan's are unwilling or unable to buy exchange except just sufficient to cover their immediate requirements, and with a fair amount of produce bills making, a considerable expert of Government scentities and the negotiation of some considerable railroad loans in London, the demand for exchange has not been sufficiently large to stiffen prices.

The transactions for the week at the Custom House and Sub-

Treasury have been as follows:

#### STATE, CITY AND CORPORATION FINANCES.

#### EXPLANATION OF STOCK AND BOND TABLES.

1. Prices of the most Active Stocks and Bonds are given in the "Bankers' Gazette," previously. Full quotations of all other securities will be found on preceding pages.

2. Government Securities, with full information in regard to each issue, the periods of interest payment, size or denomination of bonds, and numerous other details, are given in the U.S. Debt statement published in The Chronicle on the first of each month

steadlly on the increase, and the difficulty of obtaining recent and trustworthy information is consequently greater. Although these tables compiled in THE CHRONICLE are very much more complete than any similar tabulation published, and are corrected complete than any similar tabilation published, and are corrected up to the latest dates as rapidly as information can be obtained of the affairs of the various cornorations, rilli they are in some respects only intended as an index to much fuller and more detailed information. In the tables it is, of course, possible to give only the particulars in regard to any stock or bond, and some very brief remarks concerning the affairs of the company issuing it; but the references given in the "remarks" column opeosite to each stock or bend indicate to the reader the page and volume in his CHRONICLE file where an annual report or other detailed information has been published, and thus enables him to refer numerous other details, are given in the U. S. Debt statement published in The Chronicle on the first of each month

3. City Honds, and Hank, Insurance, City Hallroad and Gas Stocks, with quotations, will usually be published the first three wooks of each month, on the page immediately preceding this.

4. The Complete Tables of State Securities, City Scenrities, and Hailroad and Miscellaneous Stocks and Honds will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatify sitched in with the usual edition and furnished to all regular monthly tables of stocks and bonds, published in The Chronicle on the last Saturday of each month, will be found on the following pages:

These tables are of greater use to investors each year, as the mumber and amount of railroad, state and city securities, is

demand<br>1878-73<br>1873-87<br>1873-87<br>1873-87<br>1871-96<br>1871-95<br>1871-95<br>1871-95<br>1872-73<br>1873-1901<br>1900-1902<br>773-848-98-99<br>1904-1901 | The population of Boaton in 1870 was 250,526, against 177,840 in 1860. Valuation of real estate in 1871 was 239,524,950; personal property, \$217,448,609; total, \$612,603,550, pon which the rate of taxation was \$15 per \$1,000 for State and \$11.53 for City and County. The net increase of debt in 1871-72 was \$745,598. The total debt. Agril 30, 1872, was \$25,525,525, and the susking fund then held, \$11,641,397. Sinking fund provisions are sufficient to meet the debt as it matures. Mr. Thomas fillis Chalcunan of Board of Assessors, estimates the value of buildings destroyed to the great fire of 1872 at \$14,000,000, and personal property at \$70,000,000.                                                                                                                                                                                                                                                                                                                                                                       |
